DIGITAL TOOLKIT 2.0
WELCOME

Thank you for your continued work and feedback to reach hard to count communities. We are happy to learn that Illinois continues moving in the right direction for self-response rates. We recognize your diligent work and efforts to make sure that everyone in Illinois is counted.

Please find the second version of our digital toolkit, digital toolkit 2.0, which was expanded to include Polish, French, Chinese Simplified, and Arabic social media graphics. We have also included draft social media posts and developed a video for organizations to share on social media. Due to COVID-19, we understand the challenge of having to heavily rely on digital platforms and we hope that our toolkit arms you and your team to continue developing creative ideas to reach our communities across Illinois.

Every resident counts. Be counted. Help your town get the money it needs. We need you for this effort. Because you matter.

Illinois has received more than $156,000,000 based on Census data. That dollar amount drops for every resident not counted.

The federal government uses Census data to distribute over a trillion dollars for important services. In order for Illinois to get its fair share, we need to know exactly how many people live here.

Your information CANNOT be shared with immigration or law enforcement agencies; and it WON’T affect your government benefits.
