

Fiscal Years 2016-2019

**Nutrition Services
Request for Proposals
Issued December 2014**

**FAQ
January 19, 2015**

- 1) Do you provide revenue projections per service area (township or municipality)?

No. Overall revenue projections as of now (these MAY change) are:

- Congregate - \$1.9 million
- Home Delivered - \$3.8 million

We do not provide any further breakdowns of funding.

An applicant should budget based on the area(s) they are proposing to serve and the current demographics for those areas, which can be found in the Appendix. In other words, even if an applicant plans to serve the same area they currently serve, the demographics may have changed and therefore proposed units (volume) and proposed funding may change.

- 2) In the past, has AgeOptions provided applicants with estimated funding per township area?

No. We haven't used a funding formula for nutrition services. Cost requests should be as competitive as possible, with a sound budget justification, clear need, and we will review service history and costs. The tools you can look at are the past unit rates which are in the appendix.

- 3) What documentation should we submit to verify our organization's tax status?

State of Illinois Tax Status Letter may be submitted as documentation of your organization's tax status as requested in the Attachments.
